Your current investment strategy

Your current investment strategy indicates the way your portfolio is presently split between investment options.

Investment option	Units held	Unit price	Percent	Value
MySuper	72,528.8766	2.567650	100.00%	$186,244.07
Total			100%	$186,244.07

Your future investment strategy

Your future investment strategy indicates the way in which future contributions, rollovers and rebates will be split between investment options. You can choose the way your existing balance and future contributions are invested by making an investment switch. You can change your future investment strategy anytime without changing the way your existing account balance is invested. If you change the way your future contributions are invested, money going into your account from that point onwards, as well as deductions such as contributions tax, insurance fees and advice fees, will follow your new investment strategy.

Investment option	Percent
MySuper	100.00%
Total	100%

Estimated investment performance breakdown
1 December 2025 to 9 June 2026

Investment option	Opening balance	Closing balance	Earnings over period
MySuper	$171,388.29	$186,244.07	$5,561.64
Total	$171,388.29	$186,244.07	$5,561.64

The earning rates are derived from actual investment earnings for each investment option, after deductions for tax and indirect costs. Unit prices for investment options are calculated on a daily basis. You can view these prices at any time on our website.

Withdrawal benefit
As at 9 June 2026

Your total benefit is comprised of	
Amount accessible at any time	$0.00
Amount accessible on leaving your current employer	$0.00
Amount preserved until permanent retirement after preservation age	$186,165.19
The tax components of your total benefit	
Tax free amount	$47,796.94
Taxable amount	$138,368.25

In line with superannuation law, preserved benefits generally cannot be paid to you until you permanently retire from the workforce, or when you reach age 65.

The above is an estimate only of the benefit entitlement that would be payable on leaving the fund on the above date and is based on account information and latest unit prices available at the time it was prepared. The actual benefit that will be payable to you or on your behalf, if any, will be determined and be assessed when the benefit becomes payable, based on full and up to date information available to Brighter Super at that time. The benefit amount shown above is calculated using the latest unit price available at the time the report was prepared, which may not be the unit price produced. The amounts are adjusted with any fees or charges payable at the date of withdrawal.

Your insurance

You can view your current level of insurance cover online at any time by logging in to Member Online at brighternsuper.com.au.

If you want to increase, reduce or cancel your insurance cover, complete the eligible fee relevant form available at brighternsuper.com.au/forms. Increases to your cover may be subject to underwriting criteria and approval by the insurer.

For more information about Brighter Super insurance cover, including exclusions, increasing, reducing or cancelling your cover, see the Insurance Guide at brighternsuper.com.au/insurance-guide-all-brighter-super-cover.au.

Account summary
1 December 2025 to 9 June 2026

Opening balance at 1 December 2025	**$171,388.29**
Money in	
Adjustments	+ $23.52
Member contributions (after tax)	+ $2,819.94
Employer contributions	+ $7,767.75
Total money in	**+ $11,687.21**
Money out	
Direct fees and costs	- $130.91

Your total account balance consists of the opening balance, contributions (for accumulation accounts) and transfers in, less withdrawals, tax, insurance costs (if applicable) and direct fees. Account adjustments (amounts used to adjust the value of your account to correctly reflect earnings or to credit as administration fee rebate to your account, if eligible) may be included in the calculations of your account balance.

Investment earnings (which can be positive or negative) are also included in the calculation. Some expenses such as indirect costs and tax are deducted in the calculation of daily unit prices as they are applied to your account.

Contribution summary
1 December 2025 to 9 June 2026

Concessional	$1,737.75
Non-concessional	$3,819.94

Amounts shown are for the current financial year and only include the contributions processed through Brighter Super. Processing can take several days and those transactions that are still processing will not be included in the calculation.

The Australian Government caps the amount of concessional and non-concessional contributions you can make to your super each year. Concessional contributions include employer contributions, salary sacrifice contributions and contributions for which you have claimed a personal tax deduction. To find out more about contribution caps visit www.ato.gov.au/super/key-superannuation-rates-and-thresholds. You can view and manage your contribution caps using ATO online services (accessed via myGov).

Passing on your super
